

Lab – Day One

1. Create a Django project named **book_project**.
2. Inside the project, create two Django apps:
 - The **first app** should be named **books**.
 - The **second app** should be named **authors**.
3. In the **books** app, create **three pages**:
 - Home page
 - About page
 - Contact page
4. In the **authors** app, also create **three pages**:
 - Home page
 - About page
 - Contact page
